

Crypto Product Solution

MiCA Directive

Our focus is to provide insurance coverage for **Professional Liability, Directors and Officers**, as well as **Crime** insurance for financial institutions engaged in blockchain and cryptocurrency activities.

Our policy cater to the evolving landscape of blockchain technology, providing essential protections while ensuring compliance with relevant regulations, in particular with **MiCA, Markets in Crypto-Assets Regulation (EU Directive)**.

Who We Insure:

- **Crypto Asset Service Providers:** Organizations engaged in investment services utilizing blockchain technology (e.g., banking, asset management, trading, and payment services), fully licensed and compliant with local regulations within the EU and Switzerland.
- **Innovative Startups and Established Firms:** Ranging from new entrants in the blockchain space to established institutions adopting blockchain solutions.

What We Offer:

- **Professional Liability (PI) Insurance:** Protection against claims for negligence or errors in the rendering of Crypto Assets Financial Services to clients.
- **Directors & Officers (D&O) Insurance:** Coverage for legal liabilities incurred by directors and officers of Crypto Assets Financial Services companies against claims arising from mismanagement or failure to act in the best interest of shareholders.
- **Crime Coverage:** Extended protection related to crypto assets that may include risks of theft or fraud.

Key Additional Features:

- Scope of Crypto Services aligned with MiCA Regulation.
- Territorial scope incl. EEC
- Capacity deployed up to 3m Euro
- Locally empowered Team
- Wording available in local language and adapted to local Regulation.
- Coverage includes indemnification and legal defense costs + expenses
